Drop-front panels are two steel walls thick for rigidity and better tool security.

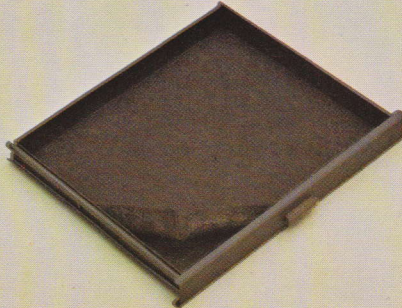

500 cylinder lock and milled key set changes give you tool security where it's needed most.

Lid hinges equipped with stainless steel, anti-corrosion pins—staked to prevent punch-out.

Machinist's Chest sidewalls are double walled from top to bottom to provide structural rigidity.

Thick wool felt drawer liners help keep tools clean and protect against corrosion.

Two-piece, drawer slides—the kind that sets durability records under heavy drawer loads.
